Forecast for Monday 01 Feb 2021

Weather: Largely dry and cloudy overnight. A rather cloudy start to Monday morning, with some low cloud across northern and eastern facing slopes. However, it should begin to brighten up during the morning, with some sunny spells developing into the afternoon. Turning increasingly cloudy this evening, with some patchy light rain and drizzle at times, before more persistent rain (with some sleet) arrives from the south by midnight.

Chance of cloud free mountain/hill tops above 600m: 10% chance of cloud free hill tops during the morning, but increasing to 80% chance during the afternoon. Decreasing to 10% chance into the evening and overnight period, with cloud bases lowering to 400-500m.

Visibility: Poor in low cloud during the morning, gradually improving to good into the afternoon. Deteriorating during the evening, with extensive low cloud.
